PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Java full-stack development and machine learning. Skilled in building REST-based web applications with Java, Spring Boot, and MySQL, and in developing predictive models using Python (Random Forest, K-Means). Seeking an entry-level role where I can apply full-stack and AI skills to solve real-world problems.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Frontend:** HTML, CSS, JavaScript
- **Database:** MySQL, SQL
- **Machine Learning:** Supervised Learning, Unsupervised Learning, Random Forest, K-Means Clustering
- **Data Analysis:** NumPy, Pandas, Matplotlib

PROJECTS

NAVIRA AI – Smart Travel Risk & Route Intelligence System

Python, Random Forest, K-Means Clustering, HTML, CSS, JavaScript

- Built an AI-powered travel intelligence system to analyze accident severity and support safer travel decisions.
- Trained a Random Forest classification model to predict accident severity from road accident and environmental data.
- Applied K-Means Clustering to uncover patterns and group similar accident records.
- Developed a web interface that displays route alternatives with distance and estimated travel time.
- Integrated ML-driven risk insights with route data to improve travel risk awareness.

Inventory Management System

Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application to manage product records, with complete create, view, update, and delete (CRUD) functionality.
- Built the backend using Spring Boot and stored data in MySQL.
- Designed a dashboard showing total products, stock levels, low-stock alerts, and product categories.

INTERNSHIP EXPERIENCE

Java Full Stack Development Intern – TVK Technologies

- Developed and maintained full-stack web features using Java, Spring Boot, HTML, CSS, and JavaScript.
- Built and tested RESTful APIs to connect the frontend with backend services.
- Designed MySQL database tables and wrote SQL queries for storing and retrieving application data.
- Applied core Java concepts such as OOP, collections, and exception handling to write clean, reusable code.

Web Development & Graphic Design Intern – Tamizha Software Solutions

- Collaborated with cross-functional team members to improve website layouts and user interface design.
- Worked with core web technologies and modern design frameworks while following project coordination practices.
- Designed online posters and digital promotional assets for corporate marketing campaigns.

EDUCATION

B.Sc. Computer Science – Ayya Nadar Janaki Ammal College, Sivakasi (2023–2026) | 71%

Higher Secondary Certificate (HSC) – AKDR Girls Higher Secondary School (2023)

LANGUAGES

Tamil, Telugu (Native), English
